

**PATTY HORR**  
**Inspirational Person On the Move**

Patty Horr used to work full-time and still found time for her children, family and friends. She would paint a room or plant a new flower bed on a whim. After being diagnosed with MS in 2004, she struggled with fatigue, dizziness, and problems with walking. Although MS has made it difficult for her to continue living her life the way she did before being diagnosed, Patty has found a new passion for raising money for the disease.

For the past five years, Patty, along with her family, has held a fundraiser called the MS/GIST fundraiser. This takes place in Scottsville every summer. Patty was one of the biggest supporters of her brother during his battle with GIST cancer, and continues this support through the fundraiser. Patty and her family have raised more than \$31,000 for MS and Gist cancer research combined.

Patty says she is honored to be chosen as an Inspirational Person On the Move, feels blessed to be surrounded by people who truly want to make a difference in the world, and hopes to continue being an inspiration to everyone she knows.
